

Introduction to Multithreading

Thread : Thread refers to the line of execution.

Program :-

```
package com.multithreading;  
  
public class Hello {  
  
    public static void main (String [] args) {  
        System.out.println ("Hello World!");  
        System.out.println (Thread.currentThread());  
    }  
}
```

Output :

Hello World! main
