

## JDBC Inserting Values In Table

### Example

// Import sql package

import java.sql.\*;

public class **InsertDemo** {

public static void main (String [] args) {

// define variables

String driver = "oracle.jdbc.driver.OracleDriver";

String url = "jdbc:oracle:thin:@localhost:1521:xe";

String user = "system";

String pass = "system";

String sql = "INSERT INTO cricketers VALUES  
(45, 'ROHIT')";

// load the driver

Class.forName (driver);

// establish connection

Connection con = DriverManager.getConnection  
(url, user, pass);

// creating statement

Statement st = con.createStatement();

st.execute (sql);

}  
}
