

LINKED HASH MAP

```
public class Maps Demo {  
    public static void main (String [] args) {  
        LinkedHashMap map = new LinkedHashMap  
            Map ();  
  
        map.put (771, "deep");  
        map.put (171, "Kushal");  
        map.put (501, "saurav");  
        map.put (873, "Kushal");  
        map.put (111, "ayush");  
  
        System.out.println (map);  
    }  
}
```

Output:-

771 = deep

171 = Kushal

501 = saurav

873 = Kushal

111 = ayush
