# HASH MAP

```java
public class MapsDemo {
public static void main (String [] args)
{

    HashMap map = new HashMap ();
    map. put (771, "deep");
    map. put (171, "kushal");
    map. put (501, "saurav");
    map. put (873, "kushal");
    map. put (111, "ayush");

System. out. println (map);

    }

}
```

# Output:-

771 = deep

501 = Saurav

873 = Kushal

171 = Kushal

111 = ayush
